

Ropes Creek residents and employees will have access to the community facilities of the Ropes Crossing Village Centre. These facilities include community and recreation facilities, childcare and schools.

The key community focal point will be the Ropes Crossing Community Resource Hub. The centre will be a high quality, multi-purpose community facility accessible to all members of the new and surrounding community. The centre will be designed to incorporate flexibility to respond to the changing needs of the community.

A Community Plan has been developed to guide the establishment of a socially sustainable, vibrant and accessible community.

Community Connections

Residents and the local community will have access to a range of planned community programs, events and activities to link them with the local community and to help them settle into their new home.

Dedicated staff help build partnerships with Council, local service providers and community organisations to ensure that residents have information about and access to local community services and programs.
